# SOCCERFANZ WEB APPLICATION

SoccerFanz is an online information website for everything sports. This website is developed by a team of JavaScript programmers for the Masters module course Advanced Application Programing.

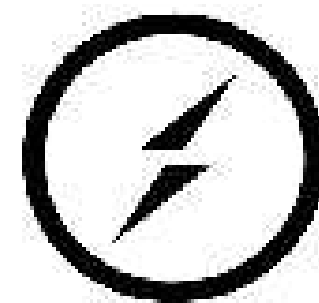

ARCHITECTURAL OVERVIEW

GOALS

The project will serve soccer fanatics with better control of sporting information.

The main motive behind this project is to develop a user-friendly web platform that provides information to our users concerning their favourite soccer teams, players, news, games statistics and line-ups, fixtures and points table, teams and player profiles, articles and social networking.
